

PARTNERSHIP ANNOUNCEMENT

FORTBRAND NAMED EXCLUSIVE

AIRPORT SUPPLIER OF EPOKE

Fortbrand Services is proud to announce its partnership with Epoke North America, bringing the world's leading precision spreading technology to airports across the United States.

As the exclusive airport supplier, Fortbrand will provide airports with direct access to Epoke's proven equipment line, supported by comprehensive training, service, and parts availability. This partnership ensures that airports can rely on both Epoke's innovative solutions and Fortbrand's trusted expertise to meet the highest standards of winter operations.

EPOKE EQUIPMENT

RELIABLE PERFORMANCE, BACKED BY EXPERTISE

With Epoke, airports gain a proven partner for winter operations. Epoke equipment is built for reliability in the harshest conditions, ensuring runways and taxiways remain safe and operational when it matters most. Its precision application technology helps airports reduce chemical usage, lower operating costs, and minimize environmental impact, all without compromising performance.

Beyond the equipment itself, Epoke offers flexible solutions designed specifically for airfield needs, from runways and taxiways to service roads.

Airports also benefit from comprehensive training and support delivered by Epoke's dedicated North American team, ensuring every machine is optimized for maximum efficiency and uptime.
